

OFFSHORE TECHNOLOGY CONFERENCE 2008

Houston, Texas, USA - For over fifteen years, Moody International has exhibited in the Offshore Technology Conference (OTC) held in Houston, Texas USA. This year the event took place from May 5 - 8, and attendance at the event reached 75,092 strong (a 26 year high and 11% increase from year 2007) as energy professionals from 110 countries met to learn about the latest technology in the offshore sector of the oil & gas industry. The more than one half million square feet exhibition area provided space for 2,500 companies from more than 35 countries.

Moody International was well represented during the course of the show with staff and management attending from all of Moody's business sectors, including TIS (Technical Inspection Services), TSS (Technical Staffing Services), MSC (Management System Certification), and TT (Technical Training). The conference allowed Moody representatives to meet with clients, recruit resources, survey competitors and explore new opportunities.

Fact: Founded in 1969, The Offshore Technology Conference is the world's foremost event for the development of offshore resources in the fields of drilling, exploration, production and environmental protection. OTC is held annually during the first week of May in Houston, Texas USA.
