

India Pipelines

Moody International has recently been awarded three prestigious contracts from GAIL (India) Ltd., New Delhi to provide third party inspection (TPI) and quality surveillance services for two major cross-country pipeline projects (DVPL-II, BNPL) and thirty-nine other small pipeline projects. GAIL's objectives in utilising third party inspection services are to assure high quality management standards during the manufacturing, construction and commissioning of the pipeline system, and confirm that design is in accordance with the company's Quality Policy.

Moody's scope of technical services includes, but is not limited to, inspection during manufacturing and coating of line pipe, pipeline construction-related activities, welding, NDT, electrical and instrumentation, and construction activities at various stations en-route as well as at the compressor stations.

PROJECTS' DETAILS INCLUDE:

Dahej Vijaypur Pipeline Project Phase II (DVPL-II)

Diameter x Length: 48" x 419 km (API 5L X-70) and 199 km (API 5L X-80)

Deployed Personnel: 20 inspectors at pipe and coating mills, laying sites and inspection at vendor premises

Bawana Nangal Pipeline Project (BNPL)

Diameter x Length: 36" x 150 km, 30" x 145 km, 24" x 123 km and 18" x 83 km (API 5L X-70 & X-80)

Deployed Personnel: 20 inspectors at pipe and coating mills, laying sites and inspection at vendor premises

Small Pipeline Projects

Diameter x Length: varying diameter of 4" - 30" and length 20 km - 250 km

Deployed Personnel: 10 inspectors at pipe and coating mills, laying sites and inspection at vendor premises.

Under GAIL's dynamic leadership of Mr. R.D. Goyal, Director (Projects), Dr. A. Karnatak, GM (Projects) and Mr. S.K. Pathak, Engineer In-Charge, these pipeline projects are sure to be successful. Moody International is pleased to be included and providing technical services
